

# FULL STACK DEVELOPER

## THE COMPANY

Simply Jet is a fast-growing on-demand private jet charter brokerage company based in Lausanne. We are convinced that the human factor is the key to success and are proud of the strong team we have put together. It is particularly important to us that everyone can express themselves and bring their own ideas.

## THE POSITION

The back-end and front-end development: architecture, development, and maintenance of our public-facing website, as well as the custom, developed CRM, strongly integrated with the customer-facing website and external systems.

## YOUR ROLE

You will be the accountable person for the general software architecture and more specifically the development of the back-end and front-end of the infrastructure of our website. We are looking for someone that is creative and business solutions-oriented. At first, we will be entrusting you with a series of key projects that need to be implemented quickly. We then expect you to help us identify the future IT needs of the business to accelerate the company's growth and efficiency.

## PLACE OF WORK

You will be based in Lausanne.
